A SNAPSHOT RECORD OF THE PATIENTS' TOTAL WAITING TIMES IN ACCIDENT AND EMERGENCY

The waiting time for patients in A & E department is made up of three elements:

- **Waiting to see the doctor in the first place (not recorded by the Department of Health)**
- **Waiting for tests and assessment to be carried out (not recorded by the Department of Health)**
- **Waiting to go onto the ward after the doctor has decided the patient needs to be admitted to hospital (recorded by the Department of Health and published annually)**

Only Community Health Councils through their monthly Casualty Watch snapshot, record and publish the patients' total wait in Accident and Emergency Departments.
