

A SNAPSHOT RECORD OF THE PATIENTS' TOTAL WAITING TIMES IN ACCIDENT AND EMERGENCY

The waiting time for patients in A & E department is made up of three elements:

1. Waiting to see the doctor in the first place.
2. Waiting for tests and assessment to be carried out for diagnosis
3. Waiting to go onto the ward after the doctor has decided the patient needs to be admitted to hospital.

Casualty Watch is a monthly snapshot of the total time spent by patients in A & E. The official data published by the Department of Health currently relates only to the third waiting period – the number of trolley waits over 12 hours. This data is used as one of the parameters to award Star Ratings to NHS Trusts. CHCs have long felt that the total wait for patients needs to be recorded. Unless the real experience of patients is used to judge the performance of the NHS, it is difficult to make sure improvements are real for patients.

We are pleased to note that the Department of Health has recognised this by:

- Starting to collect data on the total wait experienced by patients
- Setting a target for total waits of not more than four hours by 2004
- Funding the Emergency Care Collaborative to help deliver this
- Using the total wait time to award star ratings from next year.

Elizabeth Manero
CHAIR – LONDON HEALTH LINK

To: All Participating CHCs and other Colleagues concerned with Quality of Emergency Services

Subject: Casualty Watch for the 19th May 2003

Top Forty Trolley Waits.....	35

RESULTS FOR 19th MAY 2003

33 CHCs covered **36 hospitals** in London, Kent, Surrey, Sussex, Hertfordshire, Hampshire, Newcastle and Birmingham.

LONGEST WAITS IN MAY

The two longest trolley waits were at Royal Surrey County Hospital, where an 84-year-old female patient, feeling generally unwell, waited for over 43 hours, and a 90-year-old female patient, who had sustained a skull injury, had waited over 18 hours for a bed. The third longest trolley wait was at East Surrey Hospital where a 67-year-old woman, with an unknown diagnosis, had waited for more than 16½ hours.

The longest Casualty bed wait, in an A & E department, was at Easy Surrey Hospital where an 83-year-old woman, suffering from shortness of breath, had waited for over 24½ hours. The second longest bed wait was at St Peter's Hospital, where an 89-year-old woman, who had sustained a dislocated shoulder, had waited for a ward bed for over 24½ hours. The third longest bed wait was at Queen Elizabeth Hospital where a 91-year-old woman with haematoma of the left leg had waited for almost 22 hours.

Throughout participating hospitals a total of 11 patients waited, from the 17th May 2003 or 18th May 2003, in Casualty Departments for periods of 16.40 hours up to 43.13 hours.

The total number of patients in A&E departments recorded in May was 738 of whom **22 (3%)** had waited ten hours or more. **5 (0.7%)** had waited for more than 20 hours.

The total number of patients who had waited four hours or more was **210 (28.5%)**.

Over 70s

10 people aged **70** and over had been in the Accident and Emergency departments in excess of **10 hours**, and of these **4** were on trolleys. (See table on page II and III)

HOSPITAL NEWS ROUND UP

Kingston Hospital

M. Oldroyd, the visitor from Kingston CHC, reported that the department was extremely busy as it was taking patients from West Middlesex A and E. The department at West Middlesex was moving to new premises.

Newham Hospital

Jill Powell and Jean Fenn, of Newham CHC, reported that the department was short of two staff members. The visitors also reported that the 'waiting times' at the new assessment unit had reduced.

Medway, Maritime Hospital

Sue Hannant and Sheila Kearne, from Medway & Swale CHC, reported that the Medical Assessment Unit was closed due to the high volume of patients.

William Harvey Hospital, Ashford

R. Peck and B. Peck, from South East Kent CHC, reported that the hospital was on divert and there were no beds available in the wards during their visit.

INFORMATION RECEIVED FROM EMERGENCY BED SERVICE AND LONDON AMBULANCE SERVICE

Information was received from the Emergency Bed Service (EBS) regarding restrictions in force and medically refereed cases; the report can be found on page VIII.
