

Survey 1 - Before the training

Introduction

We would like to know what people think about user involvement before they start the training. This helps us decide if the training is valuable. Please help us by answering these survey questions. Do **not** put your name on it. We use codes instead to protect your privacy.

Please bring this survey to your 1st training day.

The trainer will collect and copy the surveys. They will keep one so we know what you think. They will give your copy back to you. Any comments that might identify you will not be used in writing up the outcomes. Thank you for your help with this.

What do we mean by user involvement?

User involvement is when people who use the NHS get involved in deciding what happens in NHS services. There are many ways that this can happen. For example, people can get together with staff to discuss ideas and make plans for services. They can be on committees with others who use services and talk about what will improve services. They might be interested in how research happens in the NHS and want to get involved.

Instructions

- There are 11 questions.
- For Questions 1 - 6 and question 9, please circle the **best** answer then write your reasons in the box so we understand what you think.
- For Questions 7 - 8 and 10 - 11 please write your answers in the box so we know what your hopes and feelings are.
- If you need more space, write on the back of the page.
Please put the number of the question next to what you say so we do not get confused.

General information

I plan to do these sections of the training (tick as many boxes as you need):

- Core 1 Section
- Core 2 Section
- Core 3 Section
- Theme 1: User-friendly service planning and improvement
- Theme 2: User-friendly research and development activity

What do I KNOW about user involvement?

1: I know.....

Nothing

A little

Some

A lot

about **why** there is user involvement in health and social services.
